

Bushra C C

QA Engineer (Manual) | Full Stack Developer | BI & Data Testing Specialist | +966 - 500278621 | Al Khobar ,34446, Saudi Arabia

Visa Status: Family Visa (Valid Iqama – Eligible for Employment)

Summary

Versatile **Full Stack Developer and QA-Focused Engineer with 5+ years of experience** in building and testing data-driven web applications. Experienced in handling **end-to-end development along with manual testing responsibilities**, including test case execution, backend validation, and defect tracking.

Proven ability to work across the full software lifecycle—from development to **quality assurance, data validation, and production support**—and later leading modules and collaborating with cross-functional teams. Strong expertise in **SQL validation, ETL testing, dashboard testing, and debugging complex systems**, ensuring high-quality and reliable software delivery.

Skills

Front-End & Mobile: JavaScript, TypeScript, Vue, React.js, Redux, React Query, BackboneJS, RequireJS, Bootstrap, D3.js, C3.js, jQuery, Figma

Backend & Frameworks: Python, Flask, FastAPI, Django, Java, RESTful APIs

QA & Testing: Manual Testing (Web Applications), Test Case Design & Execution, Test Planning, Functional & Regression Testing, UI Testing (React.js, JavaScript), Responsive & Cross-Browser Testing, State Management Testing (Redux, React Query), Data Visualization Testing (D3.js, C3.js), API & Backend Validation, ETL Testing & Data Accuracy Validation, Bug Tracking & Defect Management (JIRA), Dashboard & BI Testing (Power BI), Cross-Functional Collaboration, Requirement Analysis & Sprint Participation (Agile), QA Process Improvement

Databases & ETL: PostgreSQL, MySQL, SQL Performance Tuning, ETL Pipelines, NoSQL (MongoDB)

AI/ML & Data Science: TensorFlow, PyTorch, scikit-learn, Pandas, NumPy, Matplotlib, Power BI, Data Visualization

Tools & Environment: JIRA, Git, Docker, AWS (basic exposure), CI/CD pipelines, Render (deployment), Postman

Experience

Full Stack Developer | Nucore Software Solutions, India | Jul 2015 – May 2016

- Designed and built responsive front-end architectures using JavaScript, HTML, and CSS.
- Designed and implemented backend functionalities and APIs in Python.
- Assisted in developing and deploying small-scale web applications, gaining hands-on experience in end-to-end development.

Senior Full Stack Developer & BI Specialist | Nucore Software Solutions | Nov 2020 – Jan 2026 | India

Worked in small, high-impact agile teams **where developers handled both development and QA responsibilities**, ensuring complete ownership of features from development to testing and delivery. Progressed into a **senior role with leadership responsibilities**, guiding modules and ensuring quality standards.

- Designed and built **responsive front-end architectures** using **JavaScript, React, HTML, CSS, LESS, and jQuery**.
- Developed **backend functionalities and APIs** in **Python**, integrating with **PostgreSQL** databases.
- Conducted **end-to-end testing of BI applications**, including ETL testing, backend validation using SQL, API testing, and dashboard testing to ensure data accuracy, consistency, and correct KPI reporting.
- Identified, documented, and tracked defects using **JIRA**, performed **regression testing** after fixes, and collaborated closely with developers to ensure timely resolution and high-quality releases.
- Participated in **requirement analysis, sprint planning, and design discussions**, providing QA input while working cross-functionally with teams to ensure smooth delivery and production stability.
- Led key modules with ownership of both **development and QA**, ensuring quality standards, supporting deployments, and bridging communication between business and technical stakeholders.
- Acted as a **Business Analyst**, gathering requirements and communicating effectively with clients to align technical solutions with business needs.

Projects

- **Travel BI(Travel Agency)** – Led full-stack development and conducted end-to-end QA testing of Business Intelligence applications, ensuring accurate travel data analytics, reliable automated reporting, and a high-quality user experience.
- **TRAACS ETL Projects** – Developed and tested Python-based ETL pipelines to extract, transform, and load data from the main TRAACS booking application, enabling seamless integration with BI dashboards and automated data synchronization.
- **SkyTraacs BI(Airlines)** – Led end-to-end development and testing of Business Intelligence applications for Airlines, ensuring accurate travel data analytics, reliable automated reporting, and a high-quality user experience.

- **SkyTraacs ETL Projects** – Developed and tested Python-based ETL pipelines for the SkyTraacs airline system, automating data extraction, transformation, and loading to enable seamless integration with BI dashboards and enhance data accuracy.
- **Mobile BI App** – Development and quality assurance of a mobile Business Intelligence application with a **React-based front end** and **Python backend**, designed UI/UX using **Figma**, integrated RESTful APIs, and implemented real-time data visualization for actionable analytics.
- **Steganography Project (College Project)** – Developed and tested a Java application to securely send text messages and images by hiding data within digital media, demonstrating knowledge of encryption and secure communication techniques.
- **Machine Learning Projects** – Applied machine learning techniques across **Oil & Gas, Healthcare, and Banking domains**, including predictive maintenance using Random Forest, patient risk classification with Logistic Regression and TensorFlow, and credit risk analysis using scikit-learn. Built ML models and validated outputs through **data testing and result verification**.

Education

Bachelor of Technology in Computer Science | LBS College of Engineering, Kerala, India | 2015

Certifications

Data Science & AI | LearnBay | 2024

- Applied ML on datasets; created Power BI dashboards.
- Deployed ML models on AWS ensuring scalability and efficiency.

IBM Machine Learning Professional Certificate In Progress

Additional Strength

- Strong **attention to detail and analytical thinking**
- Highly committed to **continuous learning** and **quality delivery**
- Ability to **handle multiple roles (Developer + QA)** in fast-paced teams
